

INFRAGARD SAN DIEGO CYBER FUTURES SYMPOSIUM

CYBER WAIVE: THE FUTURE OF CYBER RISK

Please join InfraGard San Diego for the 7th Annual Cyber Futures Symposium where thought leaders and industry experts will help you future-proof your cyber program. Learn how cyber-attacks are rapidly evolving using generative AI and quantum computing. The rise of federal regulatory cyber reporting requirements and how businesses must prepare. We will also host a series of lightening talks on circumventing MFA, quantum computing, and social engineering using generative AI. After lunch, join us for a first-of-its-kind tabletop conducted by the San Diego Cyber Council to exercise our region's response to a cyber-attack on critical infrastructure.

**Wednesday,
October 4, 2023**

9:00 AM - 3:00 PM

**Qualcomm
Corporation
Building Q**
(6455 Lusk Blvd.
San Diego, CA)
